ABOUT THE CONFERENCE

Where ethical finance research meets practice

The **Global Islamic & Ethical Finance Conference (GIEFC 2026)** brings together academics, policymakers, and industry professionals to explore how ethical finance — including Islamic finance, sustainable finance, and responsible innovation — can support inclusive growth and long-term economic resilience.

Organised by **Islamic Finance Review (IFR)**, in collaboration with academic and industry partners, GIEFC 2026 provides a platform to exchange evidence, debate policy direction, and showcase practice-based solutions across ethical banking, ESG, and financial inclusion.

GIEFC 2025 welcomed an international lineup of speakers contributing from the USA, Germany, Pakistan, Bahrain, the UK, Oman, Jordan, Indonesia, and Ghana, with sessions across seven conference themes and a published Book of Abstracts. GIEFC 2026 builds on that foundation with a bigger programme and a wider sponsor community.
